

## power transmission optibelt OMEGA RB

# optibelt OMEGA RB

#### **TIMING BELT**

The additional PK ribbed belt profile of the **optibelt OMEGA RB** backside allows the belt to slip when the drive becomes jammed and stops suddenly. The Optibelt drive belt will protect the valuable drive components and allow the drive to restart once the blockage is removed.

#### **APPLICATIONS**

The **optibelt OMEGA RB** timing belt is used in food, corn, fruit and flour mills.

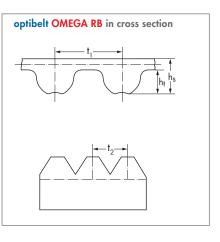

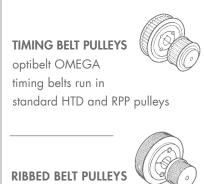

#### **ADVANTAGES**

- Rubber compound filled with aramid fibers
- Available tension cords: aramid cord, glass cord
- Antistatic according to ISO 9563
- Wear resistant: improved maintenance intervals
- RB section profile is ground into the belt's top surface for improved durability

8M/14M with PK surface

Standard range, special pulleys on request
